

Kyushu University provides the information infrastructure required by faculty members for their ICT activities at the university in the form of the services described below.

Details about each service
<ul style="list-style-type: none">• Information Infrastructure Initiative website https://iii.kyushu-u.ac.jp/en/

Inquiries concerning information infrastructure
<ul style="list-style-type: none">• Information Infrastructure Initiative Help Desk E-mail: help_iii.kyushu-u.ac.jp (Replace with @ in email addresses.)

Information Infrastructure Initiative Office Help Desk
<ul style="list-style-type: none">• The Information Infrastructure Initiative has service centers (Help Desks) on the following campuses.

- Details of main services
 - (1) Simple advice regarding computer issues
 - (2) Inquiries about University-wide ID (SSO-KID)
 - (3) Inquiries about University-wide IC cards (student IDs, staff IDs, personal cards, etc.)
 - (4) Wireless LAN (kitenet, edunet, eduroam) settings support, on-site response in the event of network issues if requested by the main office

- Service centers and contacts

Ito Campus:	iCube Support Desk (Central Library 4F)	[(Ito 90) 092-802-5868]
	Education Information Service (Research Institute for Information Technology Building 3F)	[(Ito 90) 092-802-2695]
Ohashi Campus:	Ohashi Office (Design Infrastructure Center Information Infrastructure Office)	[(Ohashi 95) 092-553-9469]
Maidashi Campus:	Maidashi Office (Medical Library 1F)	[(Maidashi 91) 092-642-6424]

Network (KITE, kitenet, edunet, eduroam)

We provide the Kyushu University Integrated Information Transmission System (KITE), Kyushu University Wireless LAN Access Service (kitenet), Educational Wireless LAN Service (edunet) and International Wireless LAN Roaming Infrastructure (eduroam) for use by staff, faculty members, and students of Kyushu University, as well as by visitors to the University. Our duties include technical support and PR activities targeting users, as well as providing technical support for security measures, such as operating the university-wide firewall. We coordinate interconnection with external networks (including SINET, the Ministry of Education, Culture, Sports, Science and Technology, the Ministry of Internal Affairs and Communications, and other research networks) and provide research support to researchers using those networks.

Contact

- About the networks (KITE, kitenet, edunet, eduroam) (Network Office, Information Infrastructure Initiative)
- Tel: 092-802-2686/2687/2688/6457
- ext.:90-2686/2687/2688/6457
- E-mail: n-room_iii.kyushu-u.ac.jp
(Replace with @ in email addresses.)

Basic University-wide email

The University-wide email service is a system to provide basic and official email services to members (staff and students) of Kyushu University. It is an official e-mail service forming the information infrastructure for the sharing of important information and communicating between members of the University. Important information from the University is sent to this email address so please check it regularly.

File-sharing system (Proself)

The file-sharing system enables files to be uploaded to the server and shared with others by emailing them the URL from which they can download the files in question. This enables files to be shared easily with others, both within the University and outside it, without the need to attach those files to an e-mail. The service can be used by any staff member as long as they have a common university ID (SSO-KID).

Contact

- About the University-wide email service and system for sharing files (University-wide email personnel at Information Sharing Technology Infrastructure Office of Information Infrastructure Initiative)

- Contact form: <https://ci.iii.kyushu-u.ac.jp/en/contact/>
- Tel: 092-802-2683
- ext.:90-2683

Provision of Campus license

Kyushu University is providing services of Microsoft products based on the comprehensive licensing agreement with Microsoft.

Contact

- Campus licenses (Software, Information Infrastructure Initiative)
- E-mail: sw-room_iii.kyushu-u.ac.jp
(Replace `sw-room_iii.kyushu-u.ac.jp` with @ in email addresses.)

Educational support service

The educational support service is the provision of an educational environment utilizing ICT for use in classes and study sessions.

*Learning Support System

It is an educational environment that uses a web-based learning system for e-learning.

*Server to learn programming

It is a Linux server to learn programming and it can be accessed from outside the campus.

*Online training system

It is an e-training system for training purposes.

After log-in, " Take courses " appears on the top page.

Contact

- Education Information Service (Education Infrastructure Office of Information Infrastructure Initiative)
- <https://ecs.kyushu-u.ac.jp/>
- Tel: 092-802-2695
- ext.:90-2695
- E-mail: uketsuke@ecs.kyushu-u.ac.jp
(Replace uketsuke@ecs.kyushu-u.ac.jp with @ in email addresses.)

Microsoft 365 Cloud Services

Members of Kyushu University may use Microsoft 365 services. The services available are as follows.

- Microsoft 365 Apps for enterprise (Office licenses for desktop version and mobile version)
- OneDrive for Business (cloud-based file storage)
- Teams (Online conferences, audio calls, some functions are limited)
- Office Online (Use of Office on web browser)

However, those whose SSO-KID starts with “ a ” (except Professor Emeritus) are not eligible to use Microsoft 365 Apps for enterprise.

It cannot be used after graduation or retirement.

- Tel: 092-802-2689/2692
- ext.:90-2689/2692

Education and research support service

*Supercomputer

We can provide a cutting-edge computing system for research, offering a scientific computation service, as well as technical support and training to users.

*Hosting

We can host a web server or email server on the Information Infrastructure Initiative ' s server, and can register any domain name requested by the department, for a charge.

Contact

- Supercomputer (High Performance Computing, Information Infrastructure Initiative)
- Tel: 092-802-2683
- ext.:90-2683
- E-mail: request_iii.kyushu-u.ac.jp
(Replace with @ in email addresses.)
- Information Infrastructure Initiative ' s hosting service (Networking, Information Infrastructure Initiative)
- Tel: 092-802-2686/2687/2688/6457
- ext.:90-2686/2687/2688/6457
- E-mail: it-room_iii.kyushu-u.ac.jp
(Replace with @ in email addresses.)

Provision of ID services

*University-wide ID (SSO-KID)

The University-wide ID comprises an ID and password provided to each member of the University, which improves the convenience, reliability and safety of their use of information services within the University. Staff and students are issued with a SSO-KID. External part-time teaching staff and contract staff, etc., can be issued with an SSO-KID on application.

The University-wide ID gives access to a wide range of University information services.

<https://web.sso.kyushu-u.ac.jp/>

In addition, by using their SSO-KID and matrix code for multi-factor authentication, staff can access highly secure services from outside the University. Please refer to the site below for information on services available through SSO-KID and matrix code authentication, as well as instructions on how to use the matrix code.

For example, “ Academic Information System (Web system) ” allows you to download a course roster and register academic results from outside the campus.

<https://web.sso.kyushu-u.ac.jp/idpw/MFA.html>

*University-wide IC card

The University-wide IC card is based on MIID (Media Independent ID), which was developed in Kyushu University ' s System LSI Research Center. It is Kyushu University ' s own brand of IC card. It was subsequently improved and is now called VRICS (Value and Right Circulation Control System). Services that can be accessed with the University-wide IC card include entry to buildings on the Ito Campus, vehicle entry gates, access to libraries, etc. Types of card include student IDs, staff IDs, personal cards for part-time staff or students, and guest cards for visitors.
