

Kyushu University has taken the opportunity of its application for the Designation of National University Corporation to formulate the Kyushu University VISION 2030. This consists of the university's vision and priority measures to become a university that leads social innovation with comprehensive knowledge by 2030.

Kyushu University brings together its diverse 'knowledge' and 'talents' to tackle social issues, transform societal and economic systems, and create new value through 'integrated knowledge' that spans the natural sciences, humanities, social sciences, and design.
