

At Kyushu University, we have introduced the “ Kyushu University Safety Confirmation System (ANPIC) ” to enforce safety confirmation speedily and reliably in times of crisis such as in large-scale disasters.

In case of an emergency such as an earthquake with an intensity of five or above, or in case of other large-scale disasters occurring in Fukuoka or neighboring prefectures, safety confirmation emails will be sent out all at once to registered email addresses. To be able to receive notifications from ANPIC on the app, LINE or personal email on your phone, please complete the set-up by accessing the website below.

Website for initial registration

<https://anpic-kyushu-u.jecc.jp/kyushu-u/regist/>

Faculty, administrative staff and students, please ensure your safety and make sure to report your status to the Administrative Office of the University.
