

The Ministry of Education, Culture, Sports, Science and Technology and independent administrative agencies select outstanding educational reform initiatives implemented by universities and provide financial support through subsidies and other funding. The University has been selected for numerous such initiatives to date. Even after the projects have come to an end, we are required to continue sharing the benefits and utilizing them across the university.

Main projects selected in the past few years

The following are recent examples selected for GP at Kyushu University.

* WISE Program (Doctoral Program for World-leading Innovative & Smart Education)

Supporting the creation and utilization of new knowledge, creating value that leads the next generation, and fostering advanced “ knowledge professionals ” by clearly defining the profile of individuals to be cultivated. Assisting in the development and implementation of a consistent degree program from the doctoral preliminary course to the postgraduate course.

- • Kyushu University initiatives adopted 【adopted in AY 2020】

Graduate Program of Mathematics for Innovation (Graduate Schools of Mathematics, Systems Information Science, and Economics)

<https://www.jgmi.kyushu-u.ac.jp/en/about/gpmi/>

* Support for Pioneering Research Initiated by the Next Generation

This program aims to strengthen financial support for outstanding, aspiring doctoral students who will play a leading role in the future of science, technology, and innovation in Japan, and to promote the development of a variety of career paths for doctoral personnel to play an active role in a wide range of fields.

- • Kyushu University initiatives adopted 【adopted in AY 2023】

Kyushu University Program to Cultivate Innovative PhDs for a Better Future

<https://k-spring.kyushu-u.ac.jp/en/>

* Next-Generation AI Talent Development Program

In order to increase the number of researchers in urgent national strategic fields, sufficient research grants will be provided to doctoral students who wish to undertake research and development that will contribute to these fields.

- The adopted initiatives of our university (Adopted in AY 2023)
Advanced AI talent development program expanding the future through synergy of foundation and application.
